## WORK EXPERIENCE

### Operations Supervisor: Red Eagle Container-Vans Repair Services, 2019-2024

- Oversaw the entire process, including pre- and post-repair documentation for Maersk's (Shipping Company, contractee), along with the inspections of the repairs themselves, ensuring thoroughness and quality control.

### System Encoder: Tropical Design Concepts , 2016-2018

- Tasked to encode needed documents directly to Maersk's (Shipping Company, contractee) data system, helping streamline their operational processes and ensuring accurate and timely data management for smoother workflows.

### HR Department (College Internship): Anflo Management and Investment Corporation , 2014-2015

- Formed basic employment policies, resulting to removal of obsolete policies that are not inline with the labor code.
- Transcribed for the arbitration team during dispute resolution, preventing significant issues.

### Freelance: 2011 - Present

- Academic writer, Ateneo de Davao University
  - Wrote and made content essays for the students that require assistance for their respective projects.
- Music Teacher, commissioned project
  - Commissioned by multiple churches to mentor amateur musicians.
- Music Producer, commissioned project and Mancave Studio
  - Tasked to produce music for clients for various purposes, such as company jingle, election campaign jingles, or solo music projects.
- Mixing Engineer, commissioned project and Mancave Studio
  - Balancing the elements of audio tracks of a music project, and evaluating the overall clarity, depth and cohesion.
- Mastering Engineer, commissioned project and Mancave Studio
  - Ensuring the quality of a music project after the Mixing process, in order for it to be compatible in today's audio mediums such as mobile phones, earphones, car stereos, and other audio streaming platforms.
- Foreign Exchange, Retail Trader
  - Profitted as retail trader using experience and knowledge in technical and fundamental analysis.
- Foreign Exchange, Adviser
  - Commissioned by various clients to give them advice and forecast their trading performances in their chosen market.
